

KEEP BESIDE YOUR WORKBOOK

Small steps. Clear notes.

Read the guide first. This page is a reminder, not an individual training plan.

BEFORE

Dog settled. Comfortable space. Live view working. A manageable action planned. You can return immediately. Support arranged for necessary absences.

DURING

Observe the whole dog. Stick to the planned action. If distress appears or the view is lost, return promptly and end the exercise. Do not wait for silence.

AFTER

Allow recovery. Record the action, actual duration and unit, body language, sounds and uncertainties. Do not increase difficulty automatically.

YOUR RECORDING KEY

Comfortable: matches the dog's relaxed baseline.

Uncertain: pause and review.

Distress: stop and seek an easier, supported plan.

WHEN TO ASK FOR HELP

Speak to your veterinarian about suspected separation-related distress or changes in health or behaviour. Injury, frantic escape attempts or severe distress need prompt help.

Educational support from Bea & Co. No fixed recovery time or guaranteed outcome. Keep the full guide and your professional's advice alongside this sheet.
